

We are in contact regarding the DG42000089 2994667 and F242003646 applications. We have two important requests from our clients that require your immediate attention.

First, in relation to the DG42000089 2994667 policy, our client needs higher Liability coverage for adaptations and conversions. It is imperative to provide complete information to avoid inconvenient delays in this process, and therefore, we would like to remind you of this key point.

Second, the owner of the F242003646 policy, Margarito Reyna Vargas, has requested a change in the registered plates. The new plates are SGK273B. To facilitate this request, we have attached an image of the relevant circulation card.

Finally, we are committed to providing exceptional service to our customers. If for any reason, it does not meet your expectations, you have questions or need clarification, please do not hesitate to share your feedback.

Our goal is to respond to all inquiries effectively and professionally, and we appreciate your support in this effort.

I look forward to your valuable reply,

Best regards.
