

REQUEST FOR POLICY CORRECTION AND CHANGE OF PLATES

It's a pleasure to be able to contact you. I am asking for your help in managing a number of issues related to my insurance policy.

First of all, I would ask you to make the necessary corrections to the serial number of my vehicle, a 1998 FORD PICK-UP, in paragraph 03 of the D4 43000308 line. It is my understanding that the current serial number is incorrect. For your reference, I have enclosed a copy of my circulation card, on which the correct serial number can be seen.

On the other hand, I would like to make an endorsement on the A942001876 to change the plates to AZL057A. I have had trouble accessing the portal and making this change on my own, so thank you very much for your support in this matter.

I am waiting for your confirmation on these changes so that my vehicle can be properly insured.

I look forward to your comments and thank you in advance for your help and cooperation.

Best regards,
Juan Raul Martinez
