

Dear

I am writing to you on behalf of a number of clients who require attention with their policies.

First, the cancellation of the AB41000186 policy for Grecia Melissa Atilano González was recently requested at the request of the client. Karolina would like Viri to warn her in advance for review. In addition, I think that it would be beneficial for everyone if we remember to read the general conditions of our policies, as they are of the utmost importance in these cases.

On the other hand, the 1999 Ford Mystique vehicle from the Building Systems fleet has F441001907 been requested to be decommissioned. This request was made by Martha Contreras, auto technician of BSM Inc, due to the termination of the contract of the worker Miguel Ángel Bautista Flores on December 26, 2021. The request has already been sent to Alberto Ramirez Contreras of BSM's mine department, but we need his support to proceed.

Finally, we have received a query regarding a renewal of a fire station where the use of firefighters was not granted. In this regard, any clarification on what this type of use entails and its application is welcome.

Thank you in advance for your support and prompt response to these requests.

Best regards,  
Wendy Mondragon L.
