

Change of Vehicle and Modification of Payment Method

Hey buddy!

I need your support with some corrections that we need to carry out according to requests we have received from our policyholders.

Initially, Martha Contreras of Building Systems made a request to remove the 1999 Ford Mystique vehicle from the company due to the departure of the worker Miguel Angel Bautista Flores. This is because of the F441001907 fleet, she has already contacted Alberto Ramirez Contreras of BSM's mine department.

Next, we need to register a vehicle on the L8 42195582 DXN policy; This is Andrea Torres Gutierrez's car insurance, her coverage must start on August 12, 2026. Please confirm the receipt and validity of these changes.

Finally, we have been asked to make a modification to the Colmar Group's payment method. They are looking to change from cash to quarterly without surcharge. In addition, they also ask us about the situation with some special conditions that you mentioned earlier.

As always, I look forward to any validation or confirmation. Remember to let me know about the progress of these actions so that we can notify our policyholders.

Please confirm receipt of this email.

I send you my best regards.
