

Good day,

I am contacting you to ask for your support on two important issues. First of all, we have to renew the EI43003364 line in the name of Rosa María Barrera Pompa. Currently, it benefits from a 40% discount, but our aspiration for this year is to increase this discount to approximately 8,000. Can you help us achieve this goal?

Additionally, I have a request from Adriana Rosales from Dynamic Alternatives in Risks. He needs our help to add a new unit to the F942004880 fleet. I am attaching the WO so that you can verify the information.

I hope you can help us with these two issues as soon as possible. We greatly appreciate your attention and support.

Best regards.
