

CHUBB MOVEMENTS SEPTEMBER 15, 2022

Leslie, I need your assistance with the following actions:

NUM POLICY REQUEST DATE

1. QI42900002 Inclusion of a new unit with full coverage in the QI42900002 policy, related to the Lessor. The invoice for the unit is attached. We request the issuance of the corresponding application for observation and certification on 15/09/2022.
2. GN43004608 Request for an additional 15% discount on the GN43004608 number. This information comes to us through Mail for Windows 15/09/2022.
3. NA[Unspecific policy number] Endorsement for clarification in the policy of Carlos Caballero, who recently suffered an incident with his 2017 Ford Fusion. On review of its policy, it was identified that the serial number of the vehicle is incorrect, despite the fact that all the other data (description of the vehicle and number of plates) coincide. Christian Montes of Aon Risk Solutions is proposing a "clarifying endorsement" for this case and we are awaiting your comments 15/09/2022.

Attached documents for your review.

Greetings and thank you.
