

Good day,

Your assistance is required for an endorsement that will change the use of two JCU policies from private to public, at no additional cost, a process similar to the previous policies we have endorsed.

In addition, we would be happy to request the inclusion of a type B cargo cover in a specific policy. It is essential to comply with Article 492 with respect to the mandatory requirements that we must meet in order to prevent and minimize money laundering activities. As of December 1, 2021, it will be mandatory to submit certain documents for issuance, depending on whether the applicant is a natural or legal person.

On the other hand, Christian Palomo Galván of the company Vision de Coverages Agente de Seguros y Fianzas SA has asked us to cancel paragraph 1 of the F642003932 bill. He stresses that his company is committed to protecting the environment, promoting the use of digital documents and suggesting that they be stored on mobile devices or computers rather than printed.

We appreciate your support and look forward to a prompt resolution. Have a great weekend!

Cordially

Beatriz.
