

I'm here to ask for some assistance. Abraham Gastelum Trujillo, a well-known insurance agent, has raised the need for a 30% discount on the E5 43001973 line. Please consider this adjustment and let me know the next steps to carry out this management.

On another topic, I got in touch with Juanita Alarcón of Autos Marsh in Mexico. It has requested the addition of two units to the NJ42000005 policy. She is willing to clarify any doubts and to improve the customer experience, she requested that this request be addressed in a timely manner. At the same time, I would like to remind you of the importance of responsible handling of the information included in our emails and avoiding its misuse.

Finally, we have been asked to change the billing of the B7 42005094 policy from a generic entity to a natural person with a specified RFC. I would appreciate your help in validating whether this modification is feasible and any guidance would be valuable in carrying out this process.

I look forward to your response with the required modifications and with any new features or additional specifications that you may consider relevant. As always, I thank you for your collaboration and highlight the good handling of these situations, which is essential to continue providing a quality service.

Best regards.
