

APPLICATION FOR ENDORSEMENT AND RENEWAL JD42007264

Dear Transit Department,

On behalf of Juan Carlos Villagómez Cornejo, we are writing to you to request the cancellation of the JD42007264 policy, which is insured by Contoso, due to its high cost. We appreciate your attention in this regard.

On the other hand, I also request the term to add the A71111 engine and the RD 63011 plates in the endorsement for the above-mentioned list. We would like to emphasize that Interproteccion, as an intermediary agent, has no responsibility for the misuse of the information attached to this email. Thank you in advance for your support in this matter.

Also, during our last renovation, we noticed that we were not granted the use of firefighters. We would be happy if you could provide us with more details on what this type of use entails. Although we carry out our renewals in a similar way to previous ones, we would find your clarification on this very helpful.

We hope that upon receipt of this email you will be able to respond to our questions and requests. Be sure to add the initial files and required data before submitting your response.

Best regards,

Erika Mendoza García
