

Policy Endorsements & Discount Request

We have just received notification that Alondra has requested a 35% discount on the GN43003607 of José Luis Sánchez Navarrete. Likewise, Marcelo Cant Reyna has opened a request for CSAR to make various deregistration endorsements for several units of Diesel Servicios Industriales SA de CV. These units include various models from General Motors, Ford and Volkswagen.

In addition, we want to stress the importance of staying alert and secure for messages originating outside of our network on Aon. Let us be aware of the security of our information and handle it with due prudence.

We require your support with these modifications and the review of the discount request. We look forward to hearing from you and your decisions on the above-mentioned requests.

Thank you and best regards,

Eng. Gerardo A. Arrubarrena Tame
