

CHANGE OF USE AND CORRECTION OF PROCOMEX POLICY F942002927 SERIES

Hello

I am contacting you to request various changes to the referenced policy. First of all, we need to change the use of the insured unit which is no longer for private use, but for public and federal use. I would like to know if the application needs to be reissued or if we can simply generate an endorsement.

In addition, it appears that there was an error in collecting the serial number on the page. It is requested that it be corrected prior to a trip scheduled for this Sunday.

This inconvenience comes after a recent incident with the insured vehicle. During a journey, a stone smashes the glass and we need to make the insurance coverage valid. However, we run into these technical obstacles in the system to complete the procedure.

I appreciate your help with these issues in advance.

POLICY F942002927 INSURED SUBSECTION UNIT MODEL NAME FERNANDO
AGUILERA [VEHICLE INFORMATION]

Best regards,

[Sender Name]
