

Good day,

I am seeking your assistance in resolving some issues with a number of insurance policies and account information.

First, the insurance policy M942010254 issued for Aquapestur S.A. A de C.V. has an error with the name of the tax colony. Instead of being called "Lomas de Tejaluca", it should be listed according to the standard of the zip code provided in our database. We kindly ask for your help in rectifying this both in the letter and in the attached documents.

Second, help is needed to correct the plate numbers that are specifically mentioned in various sections. Alberto Ledesma Uribe will provide the correct license plate numbers for the respective amendments.

Finally, we are requesting your collaboration to directly generate a change of the invoice in item 20 of the Peninsular Livestock insurance for Inmobiliaria Rivemaya. The total premium amount must be 5,133.43. We will attach the proof of tax status necessary for the corresponding operation.

In addition, a client commented that he had accidentally provided us with an inappropriate tax certificate, let me share the correct one for future reference, and we would appreciate your cooperation in changing the data in the policy and invoice, in addition to the specific conditions.

I hope we can resolve these issues as soon as possible. I count on your support to update and modify this information in our system.

Additionally, it would be of great help if you could enable the bulk printing module in the portal for these cases and share the special conditions confirmed for this account.

Thank you in advance for your support and we will look forward to hearing from you.

Best regards.
