

This email combines several requests for changes to auto insurance and major medical expenses. The first request is from the owner of a 2014 Toyota Corolla, who needs an adjustment to the plates of his insurance policy, changing them from 932ZGH to PDP7168. He also asks for his circulation card to be registered. We need to proceed with this change as soon as possible.

On the other hand, Jessica Fierro Urtiz, Commercial Executive of Chubb Seguros Mexico, has found an error in our system regarding the Insured amount of GMM in the A942004164 list. The current amount is 80,000.00 MN and should be 240,000.00 MN. In addition, Jessica requests the inclusion of several optional coverages in this policy. Recognizing the urgency of both matters, I remain vigilant to make the necessary corrections today.

Best regards

María José Hernández Ramos
