

Good afternoon Marcelo,

I hope you are in excellent health. I ask for your invaluable support in updating some details related to our current policies.

To begin with, we need to cancel Subsection 827 of the EI41500004. This action is necessary as the corresponding unit has been declared as PT and a payment was made last week.

In addition, we also require a refund of the premiums of this policy. We believe in the importance of trading fairly and equitably with respect to our clients' financial contributions and therefore ask you to please proceed with the return.

Another point to consider is the addition of the BP endorsement to the DB43001524 bill, which is in the name of Valdez Siari Rosario within the scope of SNTE 54. Thank you very much if you could help us accomplish these tasks.

We appreciate your attention and cooperation with these matters. I'm sure you can help us handle these issues as quickly as possible.

Thank you!

Cordially
