

Hello everyone, I hope you are doing very well!! I am contacting you to request important modifications to some documents and policies of our fleet vehicle units.

To begin with, I would like to talk about an attached unit in the fleet of A7 42015716 TANK CARS. The request is that it be registered, in addition, an additional charge of 5400 has to be made to the net premium before issuing 2. Unfortunately, I have no references for the description to be used for the unit. I appreciate your help with this amendment.

Second, Dany Tere and team, we need to generate an endorsement modifying the description of the unit version. Currently, only V6 models appear on the portal and the truck in question is V4. To verify this, I attach the work order and invoice for the unit. As you can imagine, this discrepancy could lead to a cost difference, so it is very important that we make this correction.
