

SERIES OF FLOTILLAS OF THE GOVERNMENT OF MARCELA SANTIAGO ALARC N

Good afternoon, it is a pleasure to contact you again. I hope everything goes well in their respective areas.

The reason for this email is to ask for your valuable support to implement some corrections in our fleet management. Specifically, we require adjustments to the Serial Number information attached in our ALPLA 405 Report K643807045. Currently, the numbering reads 3G1B85DMHS503147 when the correct number would be 3G1B85DM0HS503147.

In addition, I would like to inform you that we have identified problems in several of the insurance policies for our government fleets. Because of this, we are in need of making the pertinent corrections as soon as possible.

As part of the actions to be carried out, we have planned the delivery of the prints with the corresponding corrections next Monday at 10:00 a.m. Subsequently, we expect the issuance of the corrected insurance policies to take place later that afternoon.

I thank you in advance for all the collaboration you can give us in this process. Your prompt response is appreciated.

With my best wishes, See you soon!
