

We are receiving an issuance request for the 1999 DODGE NEON unit from contractor Marco Antonio Torres Sanabria. We appreciate it if you could help us with this, Jenny, and we look forward to your feedback.

In addition, Dr. Julio Sar Lopez Dáz has pointed out an error in the description of the vehicle in his insurance policy B243400175. You have submitted an invoice and the previous year's page for your reference. Erick Senz Aguilar has taken the lead in this matter.

Finally, we would like to mention that a modification has been requested for the change of use of certain units to private property. We ask for your cooperation in processing the corresponding PDFs and providing an extensive list of the subparagraphs to be modified.

If you could help us resolve these issues, we would be very grateful. I look forward to your reply.

Best regards
