

ENDORSEMENT ENGINE NUMBER & RFC POL SMURFIT L8 42190001 END FOL 3187644

Hello

This email requests support to generate procedures for the registration of policies in relation to various topics.

José Luis Ledesma Garibay needs his registration and attached the required form to register his policy, however, this cannot be annual due to its shortened validity.

On the other hand, Daniel Ibarra of DILO Seguros, reported the need to correct the serial number of the I241000066 page belonging to Eliel Abelardo Ruiz Pruneda and asked Joel for his help to carry out this task.

Finally, Cristian Vázquez of AT&T Lockton Mexico, encounters problems in several cancellations of insurance policies, some due to the loss of employees and others related to the sale of units. A detailed list of the policies, as well as the exact dates and times of these cancellations, is attached for review.

A thousand apologies if we could not correctly attach all the documents. Usually, send the information until it is confirmed that it is properly attached.

It is very important that upon receipt of this request, you verify the previous information and the necessary new data. Thank you in advance for your support.

Greetings from Yahoo Mail for Android

NOTE: When replying to this email, please include all original files along with any additional information required. Thank you.
